Researchers (breeding)

**Institute of Vegetable and Melons growing of
NAAS**

Field of activity:

Cucumbers breeding in protected ground and open field. Creation of new genotypes: lines, varieties, heterosis hybrids of cucumber. Development of the latest methods of breeding and seed production.

Education:

1995 – 1999

**Kharkiv State Agrarian University
nd. a. V.V. Dokuchaev,
specialty "Agrarian Management"**

2001 – 2003

**Postgraduate studies at the Institute of Vegetable and
Melons Growing of the Ukrainian Academy of Sciences:
«Breeding and seed production»**

Labor activity:

07.1992 – until now

Institute of Vegetable and Melons Growing of NAAS
*Economists, graduate students, junior researchers,
researchers*

The scientific work is related to the creation of new genotypes of parthenocarpic type cucumber for protected soil - high-yielding, marketable, disease-resistant varieties of different ripening periods with high adaptability and quality of fresh and processed products.

The results of scientific research were covered in 48 scientific publications, including: 3 methodological recommendations, 2 scientific and practical recommendations. I am the co-author of 10 gynocious inbred lines of cucumber, which

are registered in the National Research Center of the Russian Federation, 3 parthenocarpic cucumber hybrids: Nadiya F1, Lyric F1, Slava F1 and 1 bee-pollinated cucumber hybrid Neperemozhnyi F1. He is the co-author of 1 utility model patent.

I regularly upgrade my qualifications - I have repeatedly completed an internship at the Institute of Crop Production of the National Academy of Sciences and a. V. Ya. Yuryev (Kharkiv).

During her scientific activity, mastered a set of research methods related to genetics, breeding and seed production. Mastered the practical skills of setting up experiments, hybridization and obtaining hybrid seeds. I take part in the development of plans for scientific research, I make work calendar plans, scientific reports.

Personal qualities. Initiative, responsible, communicative.
